ONLY GOD AND A REVOLUTION CAN SAVE NZ NOW

NZ is in a place it has never been before. *The state of our parliament is unprecedented, only the people can bring it back.*

Gen 37:3-7

Hate will always elevate. When hate is targeted toward His people, God will use it to promote them. **Christianity was never meant to be quiet and never meant to liked by all people.** Joseph stood out, it's a harder place to be but God wants you to stand out. Fear is not our native position, faith is. *Fear will keep you in the crowd, faith will get you to stand up and out.*

Jer 1:5

God knows all about you, there is no surprise to God about your life situations. *You just have to trust Him through everything.*

The family is Gods plan for a nations success. Strong families produce strong communities, broken families wreck them. A father provides the blessing to a home, they can open or shut down the children to God. The spirit realm recognizes that and a good father will cause blessing to work for the family. The alternative is a curse where demons walk freely in the home.

It takes a good father and wife together with Christ to raise strong children physically, mentally and spiritually.

Matt 6:24

NZ is in trouble because family is last priority. It doesn't even feature on the list of political promises. We are so concerned with money family has gone out the door.

When Christ was thrown out of family and NZ the breakdown began. There is a direct correlation between NZ's prosperity and our belief in God. In 1960 when 90% believed in God NZ was wealthy, the decline of Christ has resulted in the decline of our nation.

Joseph had the love of a father, the favor and blessing operating in his life and the hate of his brothers. All were needed to reach his potential in God. Our enemies sharpen us, our friends comfort us, the love of a father carries us, all are needed in life. *Functional families is what will make NZ great again.*

The power is with the people. The 3.5% rule is the tipping point on any national topic. 175k people who turn up on any given matter in NZ will cause change to happen. *Non violent protests are twice as likely to succeed than violent protests.*
